MP — Hastings—Lennox and Addington

## Update to Bancroft Satellite Office Hours

## NEW LOCATION!

If these times don't work out for you, don't hesitate to call toll free 1-866-471-3800 to set up a new time or a phone meeting. We are here to help!

Since the municipal office has moved, my satellite office hours location has changed. My team and I will now be at **8 Hastings Heritage Way** (the Old Train Station) starting in May.

The hours remain from 12:00pm to 4:00pm on the second Tuesday of every month. For the rest of 2017, that's: May 9, June 13, July 11, August 8, September 12, October 10, November 14, and December 12.

## Making Mental Health a Priority

An overwhelming number of Canadians are affected – directly or indirectly – by mental illness at some point in our lives.

While great strides have been taken to improve our understanding of mental illness and its impact on people’s lives, wait times to see a mental health specialist in certain regions of the country can range upwards of 18 months.

Our government recognizes that this is not good enough, and that is why #Budget2017 proposes to invest \$5 billion over 10 years to support mental health initiatives. Improved access to mental health supports will result in improved health outcomes and shorter wait times for hundreds of thousands of Canadians.

**#Budget2017 will help the approximately 500,000 young Canadians who are currently unable to receive even the most basic mental health services.**

## Working with Provinces and Territories to Improve Mental Health Care

Our government is committed to improving quality of life for all Canadians.

Canada’s publicly funded, universal health care system is a source of national pride. It is an essential foundation for a strong, fair, and prosperous nation.

Every Canadian deserves access to quality health care, and that is precisely what #Budget2017 seeks to improve. Science has shown us that it is absolutely essential for those struggling with mental illness to have access to timely and appropriate mental health services.

#Budget2017 directly addresses shortcomings in mental health services by providing immediate support to provinces and territories.

#Budget2017 will assist Canadians who need immediate help, providing them with more supports they need to get well.
